Bucks County, Pennsylvania

RE: Northampton Public Sewer Improvements

Dear Resident:

The Northampton Sewer Authority has contracted Gilmore & Associates, Inc., Engineering & Consulting Services, to design the Sanitary Sewer systems for those areas in Northampton Township that currently have private systems. In order to complete the design process, our Survey crews will need to obtain depths of sewer outlet lateral pipes extending from each dwelling unit. This will require our Survey crews to locate these laterals by either entering your home and measuring the depth in the basement, or obtaining this information from the cleanout area located outside your home.

The scheduled time frame for this will be:

Saturday November 3, 2007 from 8:00am - 5:00pm
Sunday November 4, 2007 from 8:00am - 5:00pm

Please coordinate with Jeanette Manzella of Gilmore & Associates, Inc.'s at 215-345-4330 x575 (or toll free at 1-800-344-5667 x575) and indicate whether you have a basement access or not, and a time frame that you will be available, so that we can better schedule our Survey crews. We appreciate your patience and understanding during this process and apologize for any inconveniences this may cause.

Sincerely,

Patrick A. Cavanaugh, P.L.S.
